       To encrypt the quote, a simple shift cipher was used. I tried shifting the alphabet until I tried a shift and was able to decrypt the text. This is the shifted alphabet that was used. It is a shift of 10.

     RSTUVWXYZABCDEFGHIJKLMNOPQ

   The decrypted quote is " What's in a name a rose by any other name would smell as sweet"

     FGHIJKLMNOPQRSTUVWXYZABCDE

The decrypted quote is " there are two things to aim at in life first to get what you want and after that to enjoy it only the wisest of mankind achieve the second "

3) Pbegu uymiq icuuf guuyi qguuy qcuiv fiqgu uyqcu qbeme vp

After noticing that "guuy" appears multiple times in the cipher text, it made me think it was encrypted with a substitution cipher.
